### Introduction

Use this appendix to identify establishments in the United States which are approved to store and process restricted importations of animal by-products. The approval given to each establishment is for a specific animal by-product or a specific purpose.

The States are listed in the left-hand column of the *List of Establishments Approved to Import Restricted Animal By-Products*. The establishments are listed alphabetically in the middle column. The animal by-product or purpose the establishment was specifically approved to handle is listed in the right-hand column across from each middle column establishment.

The Veterinary Services National Center for Import and Export maintains a current list of approved establishments available on the Internet at the following address:

<http://www.aphis.usda.gov/vs/ncie/query-app-estab.html>

If you **cannot** find an establishment in this appendix, check the VS list on the Internet at the above address. If an establishment is **not** on any list or message, then it is either inactive or waiting for approval by VS.
